CHELUVE GOWDA N

UI/UX Designer & Web Developer

✉ cheluveg07@gmail.com 📞 8073012799 in LinkedIn 🌐 Portfolio ⚡ GItHub

PROFILE

Motivated UI/UX designer with a BCA background and strong design instincts. Experienced in collaborative environments, working on real-time projects during internship. Adept at creating clean interfaces and improving user flows. Open to learning and excited to grow with a dynamic product team.

PROFESSIONAL EXPERIENCE

UI UX Designer Intern   02/2025 - 05/2025
Scontinent Technologies pvt ltd   Bengaluru, India

Worked as a UI/UX Design Intern, focusing on user research, wire framing, and prototyping using tools like Figma and Adobe XD. Simultaneously developed skills in responsive design, user testing, and basic front-end development to strengthen design-to-development collaboration.

PROJECTS

E-SHOP – Online Grocery Platform

➢ Designed and developed end-to-end UX for a daily essentials marketplace targeting bachelors and middle-class families.
➢ Implemented intuitive navigation flows to ensure a seamless and efficient shopping experience.
➢ Created clear product categorization and filtering features to improve discover ability and minimize user effort.
➢ Prioritized usability and accessibility to provide a smooth experience, even for non-tech-savvy users.

GHOST RIDER – Bike & Accessories E-Commerce Platform

➢ Designed a unified and intuitive interface for browsing a wide range of bikes and accessories, ensuring a smooth and engaging user experience.
➢ Developed a streamlined checkout flow to minimize user friction and improve conversion rates.
➢ Integrated category-based navigation and advanced filtering to help users quickly locate relevant products.
➢ Applied strong visual hierarchy and consistent UI components to enhance brand identity and guide user attention effectively.

AI-Powered Resume Builder (Web Application)

➢ Designed and developed a responsive AI-based resume builder using HTML, CSS, and JavaScript.
➢ Integrated Open-AI API to generate personalized, ATS-friendly resume content based on user input.
➢ Enabled features like dynamic form inputs, template selection, and downloadable resume output.
➢ Built with scalability in mind for users from different industries and career levels.

Job Portal Website

- Designed a modern, responsive job portal interface to simplify the job search and application process for users.
- Created intuitive navigation flows for key features such as job listings, filters, candidate profiles, and employer dashboards.
- Focused on clean layout, accessible typography, and a user-friendly design system that supports both job seekers and recruiters.
- Developed wireframes, interactive prototypes, and visual UI components using Figma to present a complete end-to-end experience.
- Emphasized usability, accessibility, and real-world application flows inspired by platforms like Naukri and LinkedIn Jobs.

SKILLS

UI/UX Design
- Wireframing, Prototyping & User Flows (Figma, Adobe XD)
- Interface Design & Interaction Design
- Usability Testing & User Research
- Feedback-Driven Iteration & UI Consistency

Front-End Development
- HTML, CSS, Responsive Web Design
- Semantic HTML & Grid Layout Systems
- Cross-Browser Compatibility
- Figma to HTML Conversion
- Basic JavaScript Understanding

Usability & Testing
- User Interviews & Survey Design
- Journey Mapping & Pain Point Analysis
- A/B Testing & Navigation Optimization
- Heuristic Evaluation Techniques

Backend Development (Basic) – Python Flask
- Familiar with Flask framework for building lightweight web applications
- Experience in creating RESTful APIs and handling routing logic
- Knowledge of database connectivity using SQLite and MySQL
- Completed Python Full Stack Development Course at Network Rhinos (Certificate ID: NR-CHPY-204250516)

Tools & Technologies
- Figma, Adobe XD
- VS Code, GitHub
- Canva, Google Docs
